

Commission Retools Candidate Search

The Commission retooled the [Registered Candidates and Candidate Committees](#) search. Use this search to see the candidates and their campaign finance committees registered with the Commission for the November 2nd election. Once you find the candidates and their committees, view their reports to see what money they are reporting as received and spent for the election. "This retooled search gives the voters an easy way to find information about the November 2nd election, past elections, and future elections. It continues our work to provide transparent information to the public", said Julie Allen, Executive Director.
